DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-6 and 28, drawn to a coin sorter comprising both a size sorter and denomination sorter.

Group II, claims 7-20 and 29-38, drawn to a rotary coin sorter.

Group III, claims 21-24, 39 and 40, drawn to a horizontal coin passage and conveyor belt configuration.

Group IV, claims 25-27 and 41, drawn to a coin sorter comprising a new coin/old coin sorter, a coin value totalizer and a coin value converter.

The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I is drawn to an invention classified in class 453/3.

Group II is drawn to an invention classified in class 453/57.

Group III is drawn to an invention classified in class 453/18.

Group IV is drawn to an invention classified in class 453/58.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Nils Pederson on 13 August 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
